Naples, September 3.

THE 28th of last Month being the Emperors's Birth-day, the Cardinal our Viceroy, who is perfectly recovered from his late Indisposition, received the usual Compliments on that Anniversary; he assisted with a numerous Assembly of Nobility and Magistrates at the Celebration of High Mass; Te Deum was sung on this Occasion, the Cannon of all the Castles were discharged, and all other Demonstrations of publick Joy were shewn. The 1st Instant a fine Pyramid raised before the Palace, furnished with all sorts of Eatables, was given among the People. At Night, the Cardinal Viceroy gave a Consort of Musick at the Palace, where there was a great Assembly of Persons of Quality of both Sexes. This Morning two Gallies and several other Vessels arrived from Sicily, having on board some German Troops which had been embarked at Palermo; they are to perform the Quarantain appointed by the Magistrates of Health, who have redoubled their Precautions lately resolved upon, by reason the last Letters from Provence advise, that the contagious Distemper at Marseilles was not abated. They continue embarking at Sicily the Remainder of the German Cavalry, in order for their being transported to Calabria, from whence they are to march towards the Milanese. The Regiment of Foot of Lucini is daily expected here, to go to Sicily, where remains at present 13000 Foot and 3000 Horse, commanded by General Zumunggen. The two Shocks of an Earthquake felt here the 27th of the last Month, did great Damage to the Monastery of Mount Cassini, and the Places adjacent.

Vienna, Sept. 28. The 25th Instant the Emperour held a Secret Council upon the present State of his Affairs, and the Day following all the Imperial Family went to dine at the Castle of Belle Fontaine, and likewise diverted themselves with shooting Pheasants. The Prince of Beveren came hither Yesterday from his Government of Comorra in Hungary. The Count d'Althan, Great Master of the Horse to the Emperour, gave at his Country-Seat a very splendid Collation and a fine Consort of Musick Yesterday to their Imperial Majesties, and to the three Archduchesses. The Duke of Mecklenbourg-Swerin had a private Audience this Week of the Emperour; but as to the Deputies from Hambourg, it has been signified to them, that they cannot be admitted to an Audience of the Emperour, unless one of the Burghers of their City comes in Person to ask Pardon. A Match

is concluded between the young Margrave of Baden, and the Princess of Schwartzenberg, but upon Condition it be not consummated in two Years, because the Princess is but 13 Years of Age. It is reported here, that a great Reduction will be made e'er long in his Imperial Majesty's Troops. The Affairs concerning Religion draw every Day nearer to an End; and the Emperour has not only regulated, that the Electors Palatine, of Mayence, and of Treves, and the other Catholick Powers, shall redress the Grievances of their Protestant Subjects in the Space of four Months, upon the same Footing things were at the Conclusion of the Treaty of Baden; but has actually sent his Orders thereupon to those Courts. 'Tis said likewise, that in the Space of the said Term of four Months, the King of Prussia will put a Stop to the Reprizals made on the Convent of Hamersleben; and by these Means it is hoped a Foundation is laid for establishing a lasting Peace in the Empire.

Malaga, Sept. 17. On the 15th Instant arrived here an Express from Madrid, with Orders for laying an Imbargo upon all Sateas, Tartans, and Barcalongas, for the King's Service: But not on any Ships. And we hear the same is done at Cadix. It is said these small Vessels are intended to take on board the Provisions and Stores of War provided in this Place for Ceuta, whither a large Quantity of Musket-Ball is already sent from hence. It is no longer doubted, that the Design of the Spaniards is to invade Barbary from Ceuta. The Rendezvous of their Troops it is said will be at Tariffa: And the Marquess de Lede is speedily expected in Andaloufia, being appointed to command in chief this Expedition, for which every thing will be in readiness in very few Days.

Madrid, Sept. 23. N. S. The Count de St. Estevan set out this Morning from hence for Cambray. In his Way he is ordered to wait upon the Queen Dowager of Spain at Bayonne, and on the King of France and Duke of Orleans at Paris, with Compliments from their Catholick Majesties. Last Week the Duke of Albuquerque went to Court, to return Thanks to his Majesty for the Decree newly given in his Favour, by which it is declared, that his Conduct while he was Viceroy of Mexico having been maturely examined, is approved; and therefore that the Sum of 700,000 Pieces of Eight of his Effects, which on his Return to Spain was seized and deposited in the Royal Treasury shall be restored to him as soon as the publick Exigencies which drain that Treasury will permit, and that in the mean time he shall have Interest for it at the Rate of one per Cent per Annum.

Paris,

Paris, Oct. 9. The Plague has spread to Aix, which is situate between the two Lines; upon which the Parliament and People of Condition have removed from thence. It hath likewise spread itself more than ever in the Villages within the inner Line; but is neither at Apt, nor in any Place on this Side the River Durance, or the outer Line, as has been falsely reported. According to our Advices from Bayonne of the 27th past, the Marquis de Maulevrier was arrived there with the M. Robin on his Way to Madrid. Mr. Moleworth His Britannick Majesty's Envoy Extraordinary to the King of Sardinia, arrived here two Days ago on his Way to Turin.
